**祟高级生殖医学中心**

As a specialist in ophthalmic plastic and reconstructive surgery, Dr. Nathan D. Kahn at **MAINE EYE CENTER** deals with the management of deformities and abnormalities of the eyelids, lacrimal (tear) system, the orbit and the adjacent face. He is Board Certified through the American Society of Ophthalmic Plastic and Reconstructive Surgery, is Board Certified by the American Board of Ophthalmology, and is on the teaching faculty of Tufts Medical School. With 20 years of experience, his practice is limited to the structures surrounding the eye. Since eye surgery can affect one’s ability to see, Dr. Kahn is in best qualified to perform this delicate surgery and to provide the care that the eye itself may need. Services include reconstructive & cosmetic eyelid surgery, traumatic eyelid injuries, eyelid cancer, tear duct problems (tearing & dry eyes), medical & surgical management of the orbit (thyroid disease, orbital, orbital injuries & fractures) and loss of an eye (due to damage caused by disease or trauma). He also utilizes the latest advancements in rejuvenation of facial nerve palsies as well as cosmetic Botox & therapeutic Botox for eyelid & facial spasm disorders.

**Medical & Cosmetic Dermatology**

Dr. Joel Sabeen is a Board Certified Dermatologist at **MEDICAL & COSMETIC DERMATOLOGY CENTER**, and has been in private practice in the Greater Portland area for more than thirty years. Diagnosing and treating a variety of skin conditions, Dr. Sabeen is versed in the latest medical, surgical and laser therapy techniques. He also performs many cosmetic and laser procedures that treat and rejuvenate aging skin, such as Botox, Fillers and Kybella, a new injectable that treats submental fat (double chin). His practice was also chosen (by Botox) by Allergan as a National Training Site for physicians. 

His 35 year career as a Medical, a Medically Trained Esthetician and Laser Technician for the past 9 years, specializes in several anti-aging treatments, including Ultherapy, photofacials, scar revision, microdermabrasion, chemical peels and laser hair removal. Rosacea and acne treatments are also part of her repertoire.

**Great Smiles Start Here**

Today, we know that more can be done at an early age to prevent children’s dental development and maintain healthy teeth. That’s why the recommended time to take your child for their first dental visit is no later than the age of 12 months, or within 6 months of the eruption of their first tooth. Drs. John M. Willis & Michael Brown are affiliated with the **FALMOUTH PEDIATRIC DENTISTRY** are specialty trained as pediatric dentists and will suggest a schedule of check-ups and cleanings suited to your child’s individual needs. 

With years of combined experience, Drs. Willis & Brown are certified with the full spectrum of pediatric dentistry... from advice on proper flossing and brushing to nutrition counseling and eating habits, dental sealants and interceptive orthodontics (for early growth and development). They see children at every age and in all stages of growth. They emphasize that by caring for your child’s oral health as early as you can, you help them develop good dental habits. This is important for their comfort as well as why they grow older.

**Non-Surgical Spinal Care**

Alicia “Lee” Smilowicz, DO, FAAO at **HEALTHCALLS, LLC**, provides a preventive, holistic approach to healing. Osteopathic Manipulative Therapy is a hands-on, non-invasive adjustment of the whole body with emphasis on neurologic, lymphatic & vascular systems. Osteopathic Medicine appreciates the mental, physical & spiritual aspects of each person and works to encourage neurologic, lymphatic & vascular systems. Osteopathic Medicine appreciates the mental, physical & spiritual aspects of each person and works to encourage. 

Patients are evaluated on an individual basis, considering the important relationship of body structure, posture, and function. Dr. Smilowicz utilizes a variety of techniques to support the self-healing mechanism within each patient. Her spine-care focused practice allows for the release of strains, restoration of balance and enhancement of optimal wellness. With a special interest in functional restoration, Dr. Smilowicz recognizes that the body is inherently capable of healing itself. She utilizes a multidisciplinary approach (physical therapy, massage therapy, injection therapy & exercise) to help each patient discover his or her full healing potential.

**Patient Advocacy Services**

Since 1995, **PATIENT ADVOCATES** is an independent healthcare management company working primarily with employees of client companies. Its patient advocates are trained in the best practices of hospital and home health care and are knowledgeable in all aspects of coordinating patient care through the health care system, including emergency treatment, and hospitalization. The advocates are well versed in all hospital and home health care services, including rehabilitation and disability management. They serve as advocates for the patient, working with physicians or other treating providers to identify what services might be needed. They meet with patients in person, stay in contact by phone, and coordinate the care that is required for the patient’s needs. They also work closely with families to ensure that the patient is receiving the care and treatment that they need. 

Patients are generally referred through their employer, who pays for their services. If you’re injured or ill, President James A. Ward and his staff offer a positive non-adversarial, patient-centered approach to treatment and claim management.

**Comprehensive Vascular Management**

**ADVANCED VEIN CENTER, LLC** is devoted exclusively to the treatment of varicose veins, spider veins and related venous disorders. Dr. Robert B. Abrahamsen is Board Certified in Phlebology and Board Certified in Vascular Ultrasound. He offers more than 20 years of experience and provides state-of-the-art therapy, injection therapy & exercise to help each patient discover his or her full healing potential. 

Many patients with venous reflux report dull, achy leg pain. If left untreated, severe venous reflux can lead to chronic swelling, skin color changes, eczema-type symptoms and finally to ulcerations that will not heal until the veins are treated. Advanced Vein Center will treat venous reflux symptoms while obtaining the best cosmetic results. Results are achieved through ultrasound, sclerotherapy, VNUS closure, laser therapy & mini-phlebectomy. 

All procedures are performed onsite with local anesthesia. Most take about an hour and require no down time. Dr. Abrahamsen is the only physician in Maine & New England providing comprehensive care of venous leg ulcers under one roof. Treatments covered by most insurances, Medicare & Medicaid.

**Implants • Cosmetic Dentistry • Maxillofacial**

As highly trained specialists in prosthodontics, Drs. Frank Musciano, Alan Newton & Christina Gitto at **MAINE PROSTHODONTICS** strive to restore their patients’ confidence and function through full-mouth rehabilitation, cosmetic reconstruction, and implant treatments. Through specialized training and techniques, they also provide care to patients dealing with oral cancer, trauma and birth defects such as cleft lip and palate. 

Services include state-of-the-art implant systems for replacement teeth that are natural, comfortable & functional and begin with prevention & treatment plans...crown, bridge or full-mouth reconstruction, and implant restorations. Whether it be a crown, bridge or full-mouth reconstruction, they have established an outstanding reputation for dental care that is natural-looking and beautiful.
