DA VINCI® ROBOTIC UROLOGICAL SURGERY

The last decade has seen many advances in the field of surgery. The introduction of the da Vinci® robot has increased patient accessibility to advanced laparoscopic surgery. Doctors Daniel S. Kellner & Thomas M. Buckley at Acuity Eye Physicians & Surgeons, PC are skilled hands of Drs. Kellner & Buckley, and their personnel are happy to help you explore all aspects of your medical care. This award-winning service takes the time to sit down with each patient to discuss any questions or concerns. Services include family-oriented care for uncomplicated & high-risk pregnancies, routine gynecologic care, infertility, heavy menstrual bleeding, total menopause management and specialized minimally invasive surgery. All three are Board Certified Fellows of the American College of OB/GYN. They have been pioneers in performing minimally invasive procedures such as da Vinci® robotic-assisted surgery, in-office tubal ligation & endometrial ablation. They detect & manage all menopausal disorders, and have a special interest in evaluation & treatment of chronic pelvic pain and/or caring for each patient.

BOARD CERTIFIED OPHTHALMOLOGIST

As one of Greater New Haven’s leading comprehensive eye care providers, Board Certified Ophthalmologist Dr. Robert L. Block at ACUITY EYE PHYSICIANS & SURGEONS, PC is dedicated to providing you with high quality eye care health. From routine eye exams to advanced outpatient surgical procedures, Dr. Block is equipped to provide a full range of eye care services, including eye examination & treatment, contact lenses, laser surgery, cataract & implant surgery, multifocal lens implants, and facial rejuvenation including Botox®, Juvederm® & eyelid surgery. Dr. Block is quick to point out that blurred vision may limit your ability to drive, read, watch television or perform any number of enjoyable activities. Often visual difficulties are caused by cataracts, glaucoma or diabetic eye disease; however, the most common cause of decreased vision is from macular degeneration. For this reason, he will offer you a thorough evaluation to determine the cause of your vision loss.
